

PSVH2-18

Closed-circuit Piston Pump
閉回路製品向けピストンポンプ

Prototype

Features 特徴

- Compact and lightweight
- Built-in charge pump and relief valve
- Variety of options
 - Can be equipped with a high pressure Gear-Pump for the power source for auxiliary attachments
 - Swashplate Operation Method
 - (New) Electric proportional control
 - Hydraulic direct control

Specifications 仕様

- For Closed-circuit system
閉回路製品用
- Max. displacement:
 $2 \times 18.6 \text{cm}^3/\text{rev}$
最大容積
- Max. Pressure (Δp): 28.0MPa
最高有効圧力
- Rated input speed: 3,200rpm
最高入力回転数
