

PSVH2-28

Closed-circuit Piston Pump
閉回路製品向けピストンポンプ

Features 特徴

- Compact and lightweight
- Built-in charge pump and relief valve
- Variety of options
 - Can be equipped with a high pressure Gear-Pump for the power source for auxiliary attachments
 - Swashplate Operation Method
 - Hydraulic direct control
 - Built in Speed sensing function

Specifications 仕様

- For Closed-circuit system
閉回路製品用
- Max. displacement:
2×28.1cm³/rev
最大容積
- Max. pressure (Δp) : 34.3MPa
最高有効圧力
- Rated input speed : 3,000rpm
最高入力回転数
